

# OVERCOMING ANALYSIS PARALYSIS

NOVEMBER 10 – NOVEMBER 18, 2018

## Eastern Caribbean Cruise Seminar onboard the *NEW Harmony of the Seas*

*Are you tired of the same old seminars? This year, try something NEW! Attend a Cruise Seminar.*

Travel with The Cruise Academy to the Eastern Caribbean and you'll earn **15 credits** over the course of your 8 night cruise. This itinerary departs from Fort Lauderdale, Florida and sails to: **Basseterre, St. Kitts; St. Thomas USVI; San Juan, Puerto Rico & Labadee, Haiti - Royal Caribbean's Private Island.** Best of all... when you're not attending class or exploring the sights in these exotic locales, you can to enjoy all of the amenities of this highly-rated, **Royal Caribbean** cruise ship – one of the Newest, and most highly rated in the Royal Caribbean Fleet.

Our seminars allow you to combine education with a vacation; use professional development days instead of all vacation days! Deduct a portion of the cost from your taxes! Cruise seminars are a great value because they include your accommodations, meals and entertainment all in one venue. You'll also meet other healthcare professionals from various educational backgrounds, specialties and cultures that you can mingle, network & forge new friendships with on your worry-free vacation seminar! Bring a spouse or significant other, bring a friend, plan a **'girl's or guys getaway'** with your colleagues; the discounted prices are the same for everyone; only professionals attending the seminar will be charged the seminar fee.

**COURSE DESCRIPTION:** What is the significance of an elevated Mean Corpuscular Volume (MCV)? What does an elevated blood urea nitrogen (BUN) level with a normal creatinine level indicate? What is the diagnostic difference between ST depression and ST elevation? How does pregnancy affect fibrinogen or platelet levels? This seminar will look at the answers to these and many other questions regarding laboratory and diagnostic tests. Participants will learn the significance of both the normal findings of numerous commonly ordered laboratory tests as well as the implications of various abnormalities. The effects of factors such as age and pregnancy will also be considered. This seminar is meant to enhance the practice of health care workers in all clinical areas, from critical care to medical-surgical, surgical services to rehabilitation services.

**The Itinerary:** Departs Fort Lauderdale, Florida & Sails to:

## OVERCOMING ANALYSIS PARALYSIS

NOVEMBER 10 – 18, 2018

8 Night Cruise Seminar  
For Nurses Sailing to the  
Eastern Caribbean

Onboard:

*Harmony of the Seas*

About Our Speaker & Seminar Provider:

Bill Light, MSN, RN, CEN, CPEN, TCRN

Bill is a dynamic and energetic speaker whose unique style not only provides insight to his audience but also creates an engaging and fun atmosphere for them. Bill consistently delivers high-quality education that is praised by audiences, colleagues and institutions alike.

Bill is a registered nurse with over 10 years of experience in a wide variety of areas including: emergency care, trauma, critical care, pediatrics, psychiatric care, injury prevention and medical-surgical nursing. Drawing on this diverse pool of experiences, Bill connects with his audiences and delivers education that reaches them in a way that easily enables them to incorporate what they learn into their own practice.

Bill has a passion for education that enriches the practice of his counterparts and helps them to grow and strengthen their existing knowledge. For this reason, Bill focuses his topics on certifications, educational competencies, and practice enrichment for nurses.
